Transparency matters

Personal Contract Hire offers numerous benefits, but there are some key points to keep in mind.

Things to consider

You need to insure the car

It's your responsibility to cover the car with fully comprehensive insurance.

You need to set a realistic mileage allowance

If you go over the agreed mileage¹, you will need to pay an excess mileage charge. The excess mileage charge will depend on the terms and conditions of your lease.

You need to keep the car in good condition and regularly serviced

The vehicle must be maintained in accordance with the manufacturer's requirements. When the vehicle is returned at the end of the agreement, its condition will be appraised against the leasing company's Fair Wear and Tear policy. This is based on BVRLA Guidelines.

You will pay a fee if you need to end the agreement early

If your leasing company allows you to end your car lease early, an early termination fee will apply. The actual amount of the early termination fee will depend on the terms and conditions of your agreement, the value of the car and how many months you have left on the lease.
